### OBJECTIVE

As a passionate and dedicated software developer, I am eager to contribute my knowledge of programming languages, problem-solving skills, and innovative thinking to a dynamic team. I aim to leverage my academic background and enthusiasm for technology to deliver impactful solutions and grow within the software development field.

### TRAINING SUMMARY

ITFS Full Stack Development Training WinVinaya Foundation, Bangalore

#### MERN Stack Development

June 2024 - August 2024

- During this intensive training program, I gained comprehensive experience in full-stack development, covering both front-end and back-end technologies.
- Gained experience in Programming Languages: C, **Java**, **JavaScript**.
- Acquired Web Development skills: **HTML5**, **CSS**, **Bootstrap**, React.js, **Node.js**, Express.js.
- Learned Database Management: **MySQL**.
- I worked on several projects that allowed me to apply and deepen my understanding of programming and web development.
- Developed and deployed several full-stack web applications, which are hosted on GitHub.

### Projects

Role: Backend and Frontend Developer

Aug 2024

#### Overview

- Developed a web-based application using PHP and MySQL. The platform was designed to offer customers detailed information about planning and functional design for buildings.

#### Responsibilities

- Handled both backend and frontend development to create a seamless user experience.
- Implemented features that allowed customers to view and interact with various design options.
- Ensured data integrity and optimized database queries for efficient performance.
- Collaborated with the team on testing activities to identify and resolve issues, ensuring the application met quality standards.

### CERTIFICATIONS

- C Programming language – Sololearn
